

**Dynamic Energy Procurement.
Providing wholesale clarity.**

CONTROL
ENERGY COSTS

Navigating complexity.

Fixed or flexible we have it all

With business costs rising, utility expenditure is undoubtedly going to feature highly on your cost reduction agenda for the foreseeable future.

- **Energy prices, particularly electricity and gas, have risen dramatically over the last decade influenced by market fundamentals and geopolitical events**
- **Water has been deregulated and greater competition is now predicted**
- **Procurement for these utilities has the potential to be complex and for many organisations, a little mysterious**

Control Energy Costs is a market leader in electricity, gas and water. If you want control of your energy costs, that is exactly what we will help you do!

Key benefits of working with Control Energy Costs.

- ✓ A service developed around the needs and wants of your business
- ✓ A dedicated client manager
- ✓ A dedicated market analyst
- ✓ A suite of fixed or flexible options
- ✓ Budget assurance through a fully managed rolling hedged strategy
- ✓ Supply contract optimisation
- ✓ Market analysis
- ✓ Access to CECIL

CECIL is our cost, carbon and consumption dashboard. It was developed in-house, is unique to the industry and is continually developed to ensure that we remain ahead of the competition.

How we can help you.

Understanding dynamic energy procurement

Our dynamic energy procurement specialists will work with you to determine your perceived strategy, whether that be based on budget assurance or appetite for risk, focussing on what your business needs – not just today but going forward.

- **We focus on the contractual detail to ensure absolute transparency**
- **We will keep you updated with changes in underlying energy costs, legislation and third party charges, and make sure you are aware of market trends**
- **We will make sure you are aware of renewable/green purchasing options where these are a requirement**

Control Energy Costs has been active in the procurement market since 1981, delivering savings and advice to our clients. Our transparent fee structure and dependable advice ensure you and your business are empowered to make the best choice.

Fixed price purchasing

For organisations that focus on knowing what they will be paying in advance, our fixed price purchasing options will provide the security of known costs for an agreed period. Fixed price contracts are well served by our procurement team, focussing on suppliers that provide a fully transparent product, combined with secure billing processes that ensure you can get on with what you do best ... running your business.

Flexible purchasing

By contrast, our flexible purchasing option means you can choose to take advantage of market fluctuations in wholesale pricing. With our service, you can have access to a market that was once reserved only for the largest organisations. The unique appeal of our Dynamic Energy Procurement approach is its flexibility and adaptability.

Securing best prices

Whichever route you choose, our dedicated team of market analysts will work with you to reach the best acceptable price. Control Energy Costs took the decision several years ago to dispel the smoke and mirrors approach to third party pricing, opting instead to provide concise, transparent fees to all our clients.

Working in partnership.

With your best interests at heart

Finding the right business energy contract, at the right price, can be a minefield.

At Control Energy Costs, we help you compare the different options, so you can choose the best fit for your business. Transparency is a fundamental part of the way we work – we are open about every aspect of what we do for you, including what and how we are paid.

Our focus is on building long-term relationships founded on trust and mutual confidence, keeping promises, taking ownership of problems and giving good advice and long-term energy cost management solutions.

With an eye always on the future, we are progressive in developing new services and helping your business prepare for changes to technology and legislation, especially during uncertainty.

We never forget our ultimate purpose – providing outstanding service and negotiating the best deals for you, our client.

And breathe.
