

Net Zero Club

cec.uk.com | 01737 556631

Control Energy Costs Ltd, Kingsgate, 62 High Street, Redhill RH1 1SH

The Net Zero Club is for small to medium sized businesses who want to take leadership on reducing their impact on the planet.

By joining the club, you become a net zero carbon business and remove your contribution to climate change. Once in the club we will work with you to reduce your impact on the planet, offsetting your emissions on the way.

Our solution has evolved from over a decade of developing an understanding on what makes rising to the climate challenge easier for businesses. Most businesses don't have a member of staff who can work on this, so you need a simple go to solution. We have put together a simple **3 stage process**:

1 REGISTER AND SUBSCRIBE

Sign up for the Club and receive your Net Zero Club welcome pack. Congratulations, you are on the pathway to net zero carbon!

2 CALCULATE AND OFFSET

Working together, we calculate your carbon emissions and offset them, you are now carbon neutral. You have neutralised your impact on climate change.

3 MEMBERSHIP – VISIT NET ZERO HUB

On the Net Zero Hub, you can access your membership benefits, check on your emissions and reduce your footprint so that the offset cost is lower next year.

If you would like to learn more, please get in touch. We would love to help you start your journey to net zero.

The Net Zero Club is in conjunction with our service partners Energise, a company with whom we have successfully delivered some 200 projects over the past 6 years.
